Complete™ Wireless Upper Arm Blood Pressure Monitor + EKG

A clinically validated blood pressure monitor with built-in EKG technology.

Model: BP7900

Measures blood pressure and EKG simultaneously including systolic, diastolic, pulse, atrial fibrillation, tachycardia, bradycardia, and sinus rhythm.

EyeQue Insight and PDCheck

At-home vision testing.

Company: EyeQue

Visual acuity results tell if you're seeing 20/20 – 20/400 with each eye independently and with both eyes together.

Results of color blindness test indicate color deficiency level and type: tritanopia, deuteranopia, protanopia.

Results of the contrast sensitivity test indicate your ability to discern varying shades of light and dark.

PDCheck

Measures pupillary distance to an accuracy of +/-1 mm.

TytoHome™

Handheld exam kit and app that lets you perform guided medical exams.

Company: TytoCare™

Capture exams using the Tyto device and send them to a clinician or specialist for diagnosis or second opinion. Built-in guidance ensures accuracy and ease of use.

Tyto Device with Exam Camera and Basal Thermometer
Otoscope adaptor for examining the ears
Stethoscope adaptor for heart and lung sounds
Tongue depressor adaptor for the throat

Multi Head Color Ultrasound Scanner

5 Different Scanning Probes: Convex, Linear, Micro Convex, Linear and Transvaginal.

Model: SIFULTRAS-8.42

Gray Level: 256.

Transducer Frequency: 2-11MHz.

Digital Technology: Wide-Angle Imaging.

Panoramic Focusing Technology.

Frequency Compounding.

Space Compounding.

Real-Time Dynamic Aperture.

Tissue Harmonic Imaging.

Tissue Specific Imaging.

Max Scanning Depth: 300mm.

DNA Sequencing

A private and secure way to learn what your genes say about your traits and ancestry.

Company: Nebula Genomics

Thousand times more data than technologies used by our competitors.

From the comfort of your own home, you can help scientists make transformative discoveries.

Your choice if you want to contribute, and you will always remain anonymous.
